PASSION

Whenever you see DEECOY in action, you know exactly why this man needs to be a dj - his eyes are glowing out of passion!

"I enjoy working with different crowds and lead them to dance with rhythmic manipulations on the mixing desk."

His sets are gaining the character of the much quoted journey through the fact, that he has a very empathic and sensitive attitude. Although he has an eclectic approach to the compilation of his sets, he never fails to loose his main purpose out of his eyes, making people smile and feel happy, and mostly: dance!
